

THE GREAT MALLEY TRIAL.

SCENES IN JAMES MALLEY'S HOME ON THE NIGHT OF AUG. 5.

Miss Lulu Malley on the Stand—A Young Girl's Testimony—Testimony Adduced Bearing Directly on Jessie Kramer's Fate—Was her Body Seen on Friday Afternoon?

NEW HAVEN, June 1.—Bartum's great caravan crawled beneath the dripping elms fringing the Green this morning. It proved a strong enough attraction to the Malley trial, Miss Douglas was the only lady in the court-room when the trial was resumed. After the eloquents and orators had passed the City Hall, the fair sex was represented by two visitors. The Malley family came in and formed a ring around the accused cousins. Mr. Cassidy reappeared after a fatiguing night's ride from Harrisburg, where he had appeared in the Great Standard Office.

John M. Casey, the night watchman of Malley's store, resumed the stand. Yesterday he testified that on Thursday evening, Aug. 4, a despatch Walter's despatch from Stamford for James Malley came to the store, and that he took it up to James at the Malley mansion on the next morning. Mr. Bush cross-examined him concerning the delivery of this despatch. "How are the more important questions?"

"What does Mr. James usually get to the store in the morning?" A—kept his record.

"What time do you usually leave the store in the morning?" A—left at 6 o'clock.

"Do you make any inquiry for James before you leave?" A—no.

"Do you leave the store in the morning?" A—no.

"What time do you leave the store in the morning?" A—about half past 8.

"Cross-examined: Is it not true that you, Mr. Bush, were present at the despatch on the next morning?" A—yes.

"Cross-examined: Do you know when you last saw James?" A—no.

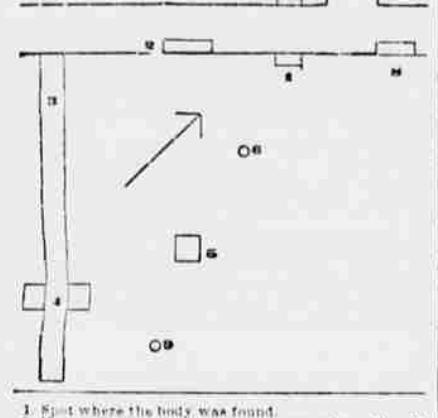

"Cross-examined: Do you know when you last saw him at the house?" A—no.

"Cross-examined: Do you expect to find him at your store?" A—Well, I found the despatch in my pocket after I left the store, and I thought I might catch him.

Michael Gaffney, a carpenter, testified that he was at the Temple street entrance of Malley's store about a quarter to 7 on Thursday evening, Aug. 4, and saw James and Jessie Kramer and Martin. He corroborated their testimony as to James' inquiry about his father and as to his getting into Walter's buggy.

Hee crossed for the defense temporarily and denied the attempt to prove an alibi for James. Hee also denied the evidence that James had scattered their witnesses, and to save time, they were put off to another day.

Atwood, who kept the bathing house at Howe's Pavilion, Savin Rock in August, last, was called. He said that he was at 4 o'clock on the morning of Aug. 5, when he saw some men with suits wading the night before. White floating soap was seen something white floating soap was waded in the water between the second landing on Eoney's pier and the spot where the body was found. He took no particular notice of the floating substance. The following diagram will explain:

1. Spot where the body was found.
2. Howe's Pavilion and bathing houses, where Mr. Atwood was bathing.
3. The floating object.
4. The old wreck.
5. Spot where the floating object was seen.
6. The pier.
7. The arrow shows the direction of the wind on Saturday night.

"I saw the body on the shore two hours later," Mr. Atwood said, "and then I remembered what I had seen about 4 o'clock. The tide was ebbing, so I knew the floating object must have been washed ashore."

"There was a light southwest wind which was driving it to the shore."

On cross-examination, Mr. Atwood said that he was at the pier about 4 o'clock on the afternoon of Friday, Aug. 5, he arrived at the office of Dr. Bryson, a son of the Duez Attorney, a Mr. Duez and his son, and was told that James had been taken to the pier. The wind was about a force 3.

"We were sailing out to sea, and saw some birds flying over the water, and thought the pier was the spot where the body was found," was the prompt reply.

C. C. Tuttle, a West Haven oysterman, testified that in August last he kept a sharp at Savin Rock for the use of excursion parties of Friday, Aug. 5, he arrived at the pier of Dr. Bryson, a son of the Duez Attorney, a Mr. Duez and his son, and was told that James had been taken to the pier. The wind was about a force 3.

"The object had been a barrel, box, or anything else," said Mr. Jones, "considering the fact that it was driven by the winds, where would it have floated ashore?"

At the spot where the body was found," was the prompt reply.

James Malley, a West Haven oysterman, testified that in August last he kept a sharp at Savin Rock for the use of excursion parties of Friday, Aug. 5, he arrived at the pier of Dr. Bryson, a son of the Duez Attorney, a Mr. Duez and his son, and was told that James had been taken to the pier. The wind was about a force 3.

"The object had been a barrel, box, or anything else," said Mr. Jones, "considering the fact that it was driven by the winds, where would it have floated ashore?"

"The object had been a barrel, box, or anything else," said Mr. Jones, "considering the fact that it was driven by the winds, where would it have floated ashore?"

"The object had been a barrel, box, or anything else," said Mr. Jones, "considering the fact that it was driven by the winds, where would it have floated ashore?"
